Table of Contents

[First Time Users](#)
[Student Edition](#)
[Instructor Edition](#)

Module I Foundation Concepts

Chapter 1 Foundations of Information Systems in Business

Section I Foundation Concepts:
 Information Systems in Business
 Section II Foundation Concepts:
 Components of Information Systems

Chapter 2 Competing With Information Technology

Section I Fundamentals of Strategic
 Advantage
 Section II Using Information
 Technology for Strategic Advantage

Module II Information Technologies

Chapter 3 Computer Hardware

Section I Computer Systems: End User
 and Enterprise Computing
 Section II Computer Peripherals: Input,
 Output, and Storage Technologies

Chapter 4 Computer Software

Section I Application Software: End
 User Applications
 Section II System Software: Computer
 System Management

Chapter 5 Data Resource Management

Section I Managing Data Resources
 Section II Technical Foundations of
 Data Resource Management

Chapter 6 Telecommunications and Networks

Section I The Networked Enterprise
 Section II Telecommunications Network
 Alternatives

Module III Business Applications

Chapter 7 Electronic Business Systems

Section I Enterprise Business Systems
Section II Functional Business Systems

Chapter 8 Electronic Commerce Systems

Section I Electronic Commerce
Fundamentals
Section II E-Commerce Applications
and Issues

Chapter 9 Decision Support Systems

Section I Decision Support in Business
Section II Artificial Intelligence
Technologies in Business

Module IV Development Processes

Chapter 10 Developing Business/IT Solutions

Section I Developing Business Systems
Section II Implementing Business
Systems

Module V Management Challenges

Chapter 11 Security and Ethical Challenges

Section I Security, Ethical, and Societal
Challenges of IT
Section II Security Management of
Information Technology

Chapter 12 Enterprise and Global Management of
Information Technology

Section I Managing Information
Technology
Section II Managing Global IT
